Section 2. Grammar

Focus on Grammar 1

Present Perfect Simple

The present perfect simple relates past actions and states to the present (it connects the past and the present).
It is in a sense a present tense as it looks back from the present into the past, and expresses what has happened before now (When we use the simple present perfect we can think 'of any time up to now'). We use it especially for finished actions that are important now.

I've met a lot of famous people. (before now).
She's lived here all her life. (up to the present, and probably into the future)
